

PROJECT ROADMAP FOR FANRADARS.COM

PROJECT OVERVIEW

FanRadars.com is a fan trend-tracking platform and interactive hub for global fandom culture. It will: - Track trending fandoms across media, music, gaming, etc. - Aggregate fan content (art, polls, discussions) - Provide a market for merchandise drops - Offer analytics & insights on fan behaviors - Enable mobile-friendly access with a native app

SYSTEM ARCHITECTURE OVERVIEW

TECHNOLOGIES

- **Backend:** Laravel (PHP)
 - **Frontend (Web):** Vue.js or Blade (Laravel-native)
 - **Mobile App:** Flutter or React Native
 - **Database:** MySQL / PostgreSQL
 - **Hosting:** AWS, DigitalOcean, or Laravel Vapor
 - **SEO & Analytics:** Google Analytics, SEO-friendly routing, Meta Tag automation
-
